Protected monuments

351. SHRI ABU ASIM AZMI: Will the Minister of CULTURE be pleased to state:

(a) whether Archaeological Survey of India (ASI) permits use of protected monuments for the conduct of certain events on payment of charges;

(b) if so, the details thereof including the nature of events permitted and the charges fixed for it;

(c) whether the ASI had given such permission in past; and

(d) if so, the details thereof during the last three years, year-wise and State-wise?

THE MINISTER OF CULTURE (SHRIMATI AMBIKA SONI): (a) to (d) The Archaeological Survey of India permits usage of specific protected areas of some selected centrally protected monuments/sites in the country for holding cultural events of high standard, preferably classical music, dance and drama on payment basis. The details of payment charged for their usage and the list of monuments/sites where such cultural events could be permitted under the guidelines issued by the Archaeological Survey of India is given in Statement-I (*See* below). The details of holding cultural events at centrally protected monuments during the last three years is given in Statement-II.

Statement-I

The Guidelines issued by the Archaeological Survey of India alongwith list of centrally protected monuments/sites where cultural events could be permitted

1. As a matter of course, the Archaeological Survey of India (ASI) will not like to permit the use of monuments and land attached to such monuments for holding functions/events. The circles may, however, permit such use only as an exception if the DG, ASI/SA, circle is fully satisfied that the function/event is unlikely to cause any damage, whatsoever, to the monument, its land and other built structures standing thereon.

2. The circles would accord permission in only those monuments, which are identified for holding cultural events. They will also delineate the area/parts of the monument where such events can be held.

3. The DG, ASI/SA, circle may refuse permission to hold functions in the identified monuments/sites in case ASI had undertaken recent renovation/beautification works and the holding of such event may interfere with the work / damage the renovations.

4. If a monument is not listed for allowing the holding of cultural, the DG, ASI may grant such permissions after calling for a report from the concerned SA. The DG, ASI however reserves the right to disallow any such request. His decision will be final.

5. Permission can be granted for holding cultural events of a high standard, preferably classical. For this purpose, cultural events would mean classical music, dance and drama. In deciding whether an event is a cultural event or not, the decision of the DG, ASI would be final.

6. No permission would be granted for any function / event where the admission is regulated by sale of tickets or by levy of admission charges.

7. No permission would be granted for any event which involves any commercial/ religious activity like sales, exhibition - cum - sales etc.

8. Permission for holding functions would be granted only to Government departments and public bodies. No permission would be granted to private individuals, private bodies or other commercial organisations. In deciding whether the requests for holding a function is from a public body or not, the decision of the DG, ASI would be final. While considering the requests from public bodies, the DG, ASI/ SA, circle would consider the previous history and activities of the organisation the purpose for which the event is being held and the nature and duration of the cultural event.

9. Permission issued will be valid only for one day except in exceptional cases where for reasons to be recorded, such permissions may extend to more than one day. All temporary structures must be constructed and removed within the same day by 11 p.m. All function must conclude by 10 p.m. No music or loudspeaker etc. will be allowed thereafter. Any violation will lead to a police complaint by ASI officials.

10. No construction activity of any type will be permitted except for putting up a temporary rostrum or stage, which can be moved away. In putting up such temporary structures there will be no masonry activity.

11. As the conduct of the event within the monuments or its precincts is likely to cause damage to the built infrastructure and its environs, the ASI would levy the following charges for usage:-

    (i) For conducting an event in the land attached (outside) to a protected monument Rs.25000/- per day and where a part of the built monuments (inside) is also likely to be used along with the land Rs. 50000/- per day would be charged. (in select monuments in Delhi).

    (ii) In other circles for conducting cultural event, Rs.10000/- would be charged per day (for one day only) for using the area attached (outside) to a protected monument and where a part of the protected monuments is also likely to be used, Rs.25000/- per day would be charged.

    D.G., ASI may decide if other differential needed.

In addition to the above, ASI would also demand a refundable security deposit of Rs.50000/- per day in all monuments in Delhi. In other circles, this refundable security deposit would be Rs.30,000/-. This security deposit would be refunded within a week after the function after deducting expenditure, if any that the ASI has incurred in clearing the area of litter/garbage etc. or in repairing damages, if any.

The ASI would be free to impose appropriate conditions on various aspects like parking, maximum number of visitors, noise and luminous levels etc. to ensure that the monument and its environs are protected and preserved and the conduct of the event would not cause any damage to the monument (physically) or its cultural integrity.

A list of monuments where cultural events could be permitted is given at Statement (*See* below). This list is not exhaustive and the ASI may amend this list as and when required.

The above guidelines have come into force with effect from on 14th January, 2005.
